

FLEXUS RD550

D400

DESCRIPTION

The "FLEXUS RD550" cast iron round cover is a model of round covers intended for traffic zones.

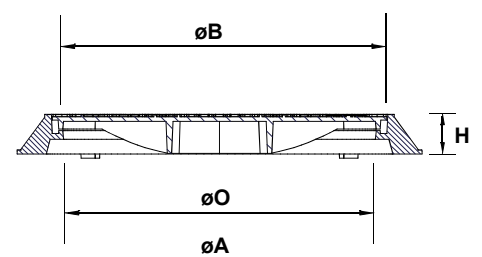

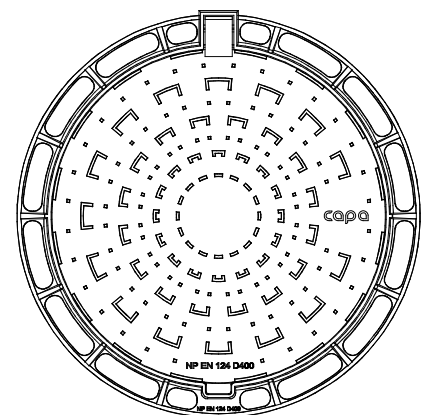

Made of spheroidal graphite cast iron (EN-GJS-500-7) to EN 1563, this device is standardized to class D400 (Group 4 of EN 124-2:2015). It is suitable for stabilized verges and car parks for all types of road vehicles.

Rim with elastic joint to reduce noise in circulation.

The hinged lid is provided with self-locking closure system through a ductile cast iron spring bar.
